

Nu-Mark™ Marker

Shake it and hear the difference!

That'll Leave a Mark!!

OUR MARKER LOOKS DIFFERENT BECAUSE IT IS DIFFERENT !!

There are as many markers as there are applications for them. Not all are created equal. If you have not found the right marker for your application, your search is over, try our **Nu-Mark** Marker! Our markers are built for Industrial/Commercial use with high quality materials and include a unique valve that allows you to control ink flow.

PM2000 Nu-Mark Permanent Marker

- * Proprietary ink formula
- * Generous ink supply
- * Dense UV resistant ink
- * Fast drying (30-45 seconds @ 68°F)
- * Leaves long lasting marks on most surfaces
- * **Writes on wet and oily surfaces**
- * Wear resistant tip lasts longer on rough surfaces
- * Long shelf life (10+ years, unactivated)
- * Screw on cap can be removed with one hand
- * Pocket clip helps keep marker in pocket and prevents it from rolling away

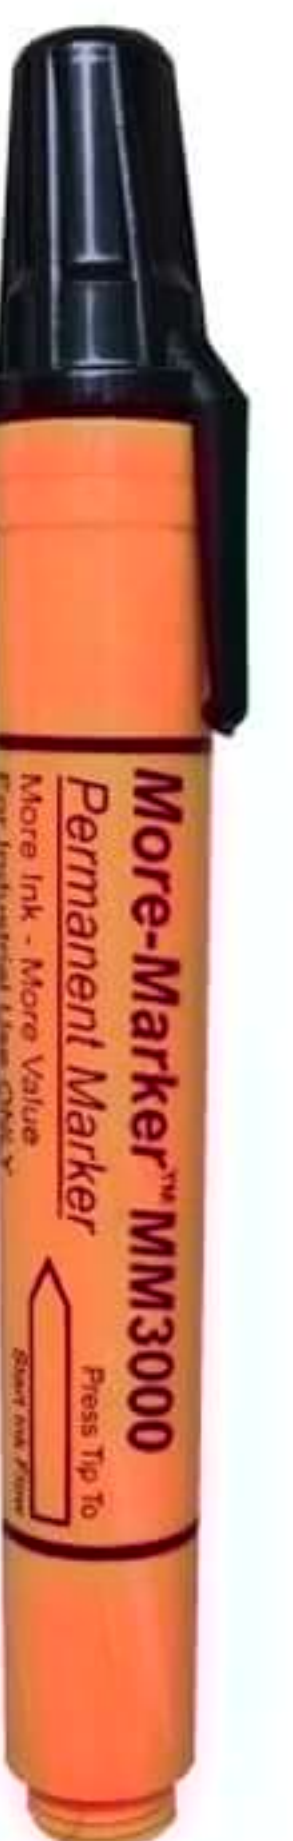

Black Red Blue

MM3000 More-Marker Permanent Marker

Same as our PM2000 but with **30% more ink!**

A great value for our customers who use a LOT of markers!

Black Red

PM2000F Nu-Mark Permanent Marker

- * Same specifications as our PM2000 above, but with a standard FELT tip instead of the rugged synthetic tip.
- * A lower cost option for use on corrugated boxes, paper, plastics and other smooth surfaces.

Black

** Our tests show that our PM2000 has the writing equivalent of 5 low cost markers. See our web site for more information.

XF5000 Xylene-Free Permanent Marker

- * Proprietary Alcohol based Ink formula
- * Generous ink supply
- * Dense UV resistant ink
- * Fast drying (20-30 seconds @ 68°F)
- * Marks on most surfaces
- * Wear resistant tip lasts longer on rough surfaces
- * Long shelf life (5+ years, unactivated)
- * Screw on cap can be removed with one hand
- * Pocket clip helps keep marker in pocket and prevents it from rolling away
